## VSC-VLC 120

### TECHNICAL SPECIFICATIONS :

Speed	: 100/200/300 BPM
Label Length	: 8 to 300mm.
Label Height	: 95/125/225/(std.) above 225mm (optional)
Dispenser Meter	: Stepper/Servo
Stop Tolerance	: +/- 0.5 to 0.75mm (servo)
Accuracy on dispenser)	: 0.75 to 1.00mm (stepper)
Roll Dia	: 350mm std. & 550mm (optional)

Dimensions are approx. only.

Maharshi reserves the right to change the specifications without prior notice.

### FEATURES

This model is used for Full / Partial Wrap Around Labelling on different size of round and other shape of containers. The unique feature of this machine is 'No change parts required for different dia. of containers' hence the down time is very less for change over.

The machine operates at the speed of 100 - 200 - 300 containers/min. (depending upon the label length). Separate drives for conveyor, wrap around and space creator is useful for precise labelling in case of multi-product with different label size. For dedicated product line, single POT speed synchronization is also available.

For wrap around labelling on rectangular & other shape of bottles /jars, various types of Rotary labellers are offered depending upon output capacity required.

### POWER SUPPLY

220/240 V AC, 50 Hz, Single Phase  
(Stabilized, Through 1 KVA CVT = Constant Voltage Transformer)  
(In client scope)

### Corporate Office

4, Ruchi, 36, Swastik Society, Navrangpura, Ahmedabad - 380 009. Gujarat. INDIA.
